Introduction

This is the annual review report for the 2018 Alachua County Community Health Improvement Plan. Alachua’s 2017-2020 CHIP runs from January 1, 2017 through December 31, 2020. This report reflects the progress made in the second year of the implementation plan, January 1, 2018 through December 31, 2018.

The activities and collaborative efforts of the Florida Department of Health in Alachua County and community partners will be reflected within the report. This document will serve as a progress report of the strategies that were developed and the activities that have been implemented. While the CHIP is a community-driven and collectively owned health improvement plan, the Florida Department of Health in Alachua County is charged with providing administrative support, tracking and collecting data, and preparing the annual review report.

The CHIP Steering Committee held an Annual CHIP Review Meeting on December 14, 2018 to evaluate and review the CHIP and to make any necessary revisions. The meeting was held at the Florida Department of Health, Thomas Coward Conference Center, 224 SE 24th St., Gainesville, FL 32641 from 10a-12p. Attendees included representatives from

Alachua County	Suwannee River Area Health Education Center
Alachua County Organization for Rural Needs (ACORN Clinic)	Tobacco Free Alachua
Alachua County Social Services	UF Health Disparities in Society Program
City of Gainesville	UF Health Shands Hospital
FDOH-Alachua	UF HealthStreet
Green Dot Violence Prevention Program	UF Institute of Food and Agricultural Sciences
Healthiest Weight Florida	WellFlorida Council

Topics covered included an overall review of the CHIP process, focusing on two health priority issues: Access to Care and Community Wellness. Following the CHIP Review was a kick-off for the new Community Health Assessment (CHA) that will begin the next MAPP cycle and inform the next CHIP in 2021. Further documentation from the meeting including the list of attendees and meeting minutes can be found in the *Appendices* sections.

Overview of the Community Health Improvement Plan (CHIP)

In August 2015, the Community Health Improvement Plan (CHIP) Steering committee agreed to move forward with a new Community Health Assessment (CHA) to guide a new CHIP for Alachua County. The Florida Department of Health in Alachua County partnered with UF Health and engaged the services of WellFlorida Council to complete the CHA. The CHA was published in June of 2016. This document is available on the FDOH-Alachua website -

http://alachua.floridahealth.gov/_files/_documents/publications/_documents/2016-cha.pdf

The CHIP Planning Team facilitated the CHIP process through using the National Association of City and County Health Officials' Mobilizing for Action through Planning and Partnership (MAPP) strategic planning model. Subject matter experts from across a diverse group of partners conducted the four assessments suggested by the MAPP process. Individually, the assessment yielded in-depth analyses of factors and forces that impact population health. Taken together, the assessment findings contribute to a comprehensive view of health and quality of life in Alachua County.

The Planning Team developed findings and presented these findings to the Steering Committee. The Steering Committee comprised a diverse leadership group representing 12 agencies and organizations in Alachua County. The Steering Committee set priorities through a facilitated consensus process by looking for cross-cutting strategic issues that emerged from the four assessments. The Steering Committee reached consensus on two strategic issue areas: Access to Care and Community Wellness. The implementation of the plan is monitored and tracked by staff at the Florida Department of Health in Alachua County. The Safety Net Collaborative oversees the Access to Care goals and the Healthy Communities group oversees the Community Wellness goals.

These groups make recommendations to the CHIP Steering committee on an annual basis so the CHIP can be revised as needed. The Steering Committee meets bi-annually to review progress and to reassess the plan. Progress is indicated in the CHIP Annual Progress reports published annually on the FDOH-Alachua website -

<http://www.alachua.floridahealth.gov/>

See Table below for Strategic Issue Areas with their goals, developed by a workgroup of subject matter experts.

STRATEGIC ISSUE AREA	GOAL
<p style="text-align: center;">ACCESS TO CARE (AC)</p>	1. Assess progress in addressing utilization of services and barriers to care.
	2. Improve access to primary care services.
	3. Improve access to behavioral health services so all adults, children and families can be active, self-sufficient participants of community life.
	4. Enhance access to preventative and restorative oral health care.
	5. Reduce infant morbidity and mortality.
<p style="text-align: center;">COMMUNITY WELLNESS (CW)</p>	1. Increase the percentage of adults and children who are at a healthy weight and advance health equity through healthy places.
	2. Reduce chronic disease morbidity and mortality
	3. Reduce illness, disability and death related to tobacco use and substance abuse.
	4. Promote oral health through prevention programs targeting children.
	5. Prevent and control infectious disease.
	6. Improve poverty rates.
	7. Reduce violence.

Summary of CHIP Annual Review Meeting

The CHIP Steering Committee reconvened for the Annual Review meeting on Friday, December 14, 2018 to evaluate progress of the improvement plan, acknowledge the work of all of those involved with the CHIP progress, and to discuss the next steps needed to ensure the continued progress of the CHIP.

The agenda included a brief review of the CHIP, present and most current outcome data, measures not meeting targets and recognition of improved performance. Committee members voted on revisions to the CHIP if circumstances changed and new barriers would prevent progress. Any changes in data or data sources will be included in the Revised March 2019 edition of the CHIP.

* Status indicators are as follows

-  = Little to no movement towards objective target
-  = Some progress towards meeting the objective target
-  = Reached or surpassed objective target

Strategic Issue Area #1: Access to Care (AC)

Limited access to health care services, including behavioral and oral health care, may contribute to poor health outcomes and high health care costs. Ensuring access to comprehensive primary care and preventative services for all Alachua County residents is an overarching goal of the Alachua County Community Health Improvement Plan (CHIP).

Goal AC 1: Assess progress in addressing utilization of services and barriers to care.

Strategy AC 1.1 *Collaboratively assess and report Alachua County's health care resources and needs, including patterns of health care utilization and barriers to care.*

Key Partners: ALL, CHIP Steering Committee, Safety Net Collaborative

Strategy AC 1.1: Why this is important to our community					
<i>One of the main barriers to improving community-wide health outcomes is the inability to access available resources. Causes of inaccessibility include, but are not limited to, poverty and low health literacy. These social determinants disproportionately affect low income groups.</i>					
Objective	Indicator	Current Level	Target Level	Status	Explanation
<p>AC 1.1.1 By December 31, 2020, a semi-annual report will be presented to the CHIP steering committee and an annual report will be presented to the Alachua County Board of County Commissioners.</p>	<p># of reports to CHIP Steering Committee; # of reports to BOCC 2018</p> <p>DOH-Alachua</p>	2	4		<p>CHIP Annual Report to be presented to the BOCC in 2018.</p>
<p>AC 1.1.2 By December 31, 2020, the CHIP Steering Committee will review indicators of access to care by comparing indicators to plan objectives and modifying and updating the plan if needed.</p>	<p># of bi-annual CHIP progress reports</p> <p>DOH-Alachua</p>	2	4		<p>CHIP Steering Committee Meeting April 2018 and December 18, 2018</p>

Goal AC 2: Improve access to primary care services.

Strategy AC 2.1 Increase access to third party coverage and other resources to maintain and expand safety net services and supplies.

Key Partners: Safety Net Collaborative

Strategy AC 2.1: Why this is important to our community					
<p><i>One of the main barriers to improving community-wide health outcomes is the inability to access available resources. Causes of inaccessibility include, but are not limited to, poverty and low health literacy. These social determinants disproportionately affect low income groups.</i></p>					
Objective	Indicator	Current Level	Target Level	Status	Explanation
<p>AC 2.1.1 By December 31, 2020, the three-year rolling rate of preventable hospitalizations under 65 will be $\leq 1000/100,000$.</p>	<p>3-year rolling rate of preventable hospitalizations under 65</p> <p>FLHealthCharts</p>	<p>1082/ 100,000 (15-17)</p>	<p><math>\leq 1000/ 100,000</math></p>		<p><i>Reached or surpassed objective target</i></p>
<p>AC 2.1.2 By December 31, 2020, the percent of people who report they could not see a doctor at least once in the past year due to cost will be $< 12.7\%$</p>	<p>% of people who report they could not see a doctor at least once in the past year due to cost</p> <p>FLHealthCharts</p>	<p>13.70% (2018)</p> <p>19% (2013)</p>	<p>$< 16\%$</p>		<p><i>Reached or surpassed objective target</i></p>
<p>AC 2.1.3 By December 31, 2020, the percent of uninsured children under 19 and $\leq 200\%$ of poverty will be $\leq 13\%$.</p>	<p>% of uninsured children under 19 and living at $\leq 200\%$ poverty level</p> <p>SAHIE</p>	<p>9.90% (2016)</p> <p>10.2% (2015)</p> <p>13.8% (2013)</p>	<p>$\leq 13\%$</p>		<p><i>Reached or surpassed objective target</i></p>

Goal AC 3: Improve access to behavioral health services so all adults, children and families can be active, self-sufficient participants of community life.

Strategy AC 3.1 Increase access to substance abuse and mental health services and increase awareness and education regarding behavioral health.

Key Partners: DOH-Alachua, Meridian, Health Promotion and Wellness Coalition of Alachua County (HPW), UF Health Shands, School Board of Alachua County, Alachua County Social Services, City of Gainesville, Mental Health Coalition

Strategy AC 3.1: Why this is important to our community					
One of the main barriers to improving community-wide health outcomes is the inability to access available resources. Causes of inaccessibility include, but are not limited to, poverty and low health literacy. These social determinants disproportionately affect low income groups.					
Objective	Indicator	Current Level	Target Level	Status	Explanation
<p>AC 3.1.1 By December 31, 2020, 52, 868 of Alachua County residents will have successfully completed training in Mental Health First Aid.</p>	<p>% of Alachua County residents who have successfully completed training in Mental Health First Aid</p> <p>Meridian 2017</p>	<p>4,313 residents complete MHFA</p>	<p>52,868</p> <p>Based on 2016 Population 264,341 US Census</p>		<p>Trainings are ongoing</p>
<p>AC 3.1.2 By December 31, 2020, develop and implement a coordinated system of care to improve access to behavioral health so all adults/children and families can be active, self-sufficient participants of community life.</p>	<p># of funding grants received for housing program with wraparound services for those affected by mental illness</p> <p>Alachua County Social Services and Meridian</p>	<p>12</p>	<p>4</p>		<p>Reached or surpassed objective target</p>

Goal AC 4: Enhance access to preventive and restorative oral health care.

Strategy AC 4.1 Implement recommendations of the Oral Health Coalition regarding increasing access to care by expanding the capacity of the safety net.

Key Partners: Safety Net Collaborative, UF College of Dentistry, DOH-Alachua

Strategy AC 4.1: Why this is important to our community					
<i>Oral health is essential to overall health. Good oral health improves a person’s ability to speak, smile, smell, taste, touch, chew, swallow, and make facial expressions to show feelings and emotions. However, oral diseases, from cavities to oral cancer, cause significant pain and disability for many Americans.</i>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
AC 4.1.1 By December 31, 2020, the preventable ER Visits Under 65 from Dental Conditions will be ≤80/10,000.	Age-adjusted rate of ER visits for dental problems UF Health HCI Dashboard - AHCA	121.7/10,000 2015-17 119.8 2014-16 114.6 2013-15	≤80/10,000		<i>Moving in the wrong direction</i>

Goal AC 5: Reduce infant morbidity and mortality.

Strategy AC 5.1 Implement programs and policies that encourage avoidance of unintended pregnancy.

Key Partners: Florida Healthy Babies, Healthy Communities, WIC, DCF, ELC, SBAC

Strategy AC 5.1: Why this is important to our community					
<i>The infant mortality rate is not only seen as a measure of the risk of infant death, but it is used more broadly as an indicator of community health status, poverty and socioeconomic status levels in a community, and availability and quality of health services. It is important to our community to reduce racial disparity in infant mortality. To do this, it is important for our community to collaborate efforts to influence social determinants of health.</i>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
AC 5.1.1 By December 31, 2020, decrease the percentage of birth intervals less than 18 months from 37.9% to 32.9%.	Percentage of birth intervals less than 18 months FLHealthCharts.com	38.4 (2016) 37.6% (2015)	32.9%		<i>Florida Healthy Babies Initiative launched in 2016 to address reducing infant mortality rates and the disparity gap</i>

Strategic Issue Area #2: Community Wellness

Healthy behavior and certain lifestyle choices contribute to the overall health of a community. Chronic diseases like obesity, heart disease, and certain types of cancer can be prevented by avoiding risky health behaviors such as smoking, poor nutrition, and physical inactivity. Strategic area Community Wellness (CW) aims to promote wellness among all Alachua County residents.

Goal CW 1: Increase the percentage of adults and children who are at a healthy weight and advance health equity through healthy places.

Strategy CW 1.1 Increase breastfeeding initiation and duration.

Key Partners: WIC, DOH-Alachua, Healthiest Weight Florida, UF Health Shands, North Florida Regional Medical Center, Florida Breastfeeding Coalition

Strategy CW 1.1: Why this is important to our community					
<p><i>World Health Organization (WHO) encourages and recognizes hospitals that offer optimal promotion and support for breastfeeding, including supportive hospital policies and practices, staff education, and post-discharge community referrals. There is a growing body of evidence that supports breastfeeding as critical to improved health outcomes of mothers and babies. The Ten Steps to Successful Breastfeeding were developed by a team of global experts and consist of evidence-based practices that have been shown to increase breastfeeding initiation and duration.</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 1.1.1 By December 31, 2020, the number of birthing facilities working toward achieving the 10 Steps to Successful Breastfeeding will be >6.</p>	<p># of birthing facilities working toward achieving the 10 Steps to Successful Breastfeeding</p> <p>Florida Breastfeeding Coalition</p>	2	3		<p>UF Health Shands Baby Friendly February 2015. NFRMC 2 Star Quest for Maternity Care Award June 2016</p>

Strategy CW 1.2 Increase the number of Early Care and Education (ECE) Centers.

Key Partners: DOH-Alachua, Healthiest Weight Florida, UF IFAS Family Nutrition Program, Early Learning Coalition of Alachua County, Department of Children and Families (DCF)

Strategy CW 1.2: Why this is important to our community					
<p><i>With more than 1 in 5 U.S. children ages 2 – 5 years already overweight or obese, prevention efforts must target our youngest children. (CDC, 2018) Most young children spend time in care outside of their home, making the ECE setting one of the best places to reach young children with obesity prevention efforts. (CDC, 2018)</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 1.2.1 By December 31, 2020, the number of ECE Centers recognized for achieving best practices will be > 3.</p>	<p># of ECE Centers recognized for achieving nutrition and physical activity best practices</p> <p><small>Data Source: Healthiest Weight Florida</small></p>	1	6		<p><i>New Florida ECE Recognition launched August 2018</i></p>

Strategy CW 1.3 Increase the number of schools and school districts implementing best practices related to physical activity and nutrition.

Key Partners: School Board of Alachua County, Healthiest Weight Florida, UF IFAS Nutrition Program, SBAC Farm to School

Strategy CW 1.3: Why this is important to our community					
<p><i>Schools play a critical role in promoting health and helping students establish lifelong healthy behavior patterns. Research shows a link between the health outcomes of young people and their academic success. (CDC, 2018)</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 1.3.1 By December 31, 2020, the number of schools recognized through HUSSC: SL (HealthierUS School Challenge: Smarter Lunchrooms) will be ≥ 15.</p>	<p># of schools recognized through HUSSC: SL</p> <p><small>School Board of Alachua County</small></p>	22	15		<p><i>Reached or surpassed target</i></p>

Strategy CW 1.4 Increase the number of health care settings promoting chronic disease prevention strategies and programs.

Key Partners: UF HealthStreet

Strategy CW 1.4: Why this is important to our community					
<i>High blood pressure increases your risk for dangerous health conditions including heart attack, stroke, chronic heart failure and kidney disease. High blood pressure can be controlled and prevent chronic disease, avoidable health events. (CDC, 2018)</i>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
CW 1.4.1 By December 30, 2020, the number of adults that have ever been told they have high blood pressure will decrease from 29% to 25%.	% of adults with high blood pressure UF Health HCI Dashboard	29.0%	25.0%		Data only reported every 5 years

Strategy CW 1.5 Increase the number of cities and counties working to advance health equity by implementing best practices related to physical activity and nutrition.

Key Partners: Alachua County and all 9 local government municipalities (High Springs, Alachua, Newberry, Gainesville, Waldo, Micanopy, Archer, La Crosse, Hawthorne)

Strategy CW 1.5: Why this is important to our community					
<i>Florida's county and municipal governments play an important role in decreasing the prevalence of unhealthy weight in their jurisdictions. Obesity and associated chronic diseases have a considerable economic impact on individuals and communities and some people are more seriously affected by factors such as the availability and accessibility of healthy food and the safety, accessibility and existence of spaces for physical activity.</i>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
CW 1.5.1 By December 30, 2020, the number of cities, counties, and municipalities recognized annually as Community Champions will be ≥ 4.	# of cities, counties, and municipalities recognized annually as Community Champions Healthiestweightflorida	2	4		Previously established goal increased from 2 to 4

Goal CW 2: Reduce chronic disease and mortality.

Strategy CW 2.1 Partner agencies and organizations will collaborate to support implementation of initiatives that promote healthy behaviors.

Key Partners: Healthiest Weight Florida

Strategy CW 2.1: Why this is important to our community					
<p><i>Florida’s county and municipal governments play an important role in decreasing the prevalence of unhealthy weight in their jurisdictions. Obesity and associated chronic diseases have a considerable economic impact on individuals and communities and some people are more seriously affected by factors such as the availability and accessibility of healthy food and the safety, accessibility and existence of spaces for physical activity.</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 2.1.1 By December 31, 2020, the Alachua County Community Resource Guide will be updated annually.</p>	<p># of annual updates</p> <p>Data Source: Alachua County Community Resource Guide – UF Health Disparities Program</p>	<p>Complete Community Resource Guide</p>	<p>Annually</p>		<p><i>Resource guide is updated annually</i> https://care.med.ufl.edu/alachua-resource-guide/</p>

Strategy CW 3.1 Prevent youth and young adults from initiating tobacco use.

Key Partners: Tobacco Free Alachua, DOH-Alachua, UF Health Shands, Gainesville 4All, Safety Net Collaborative, Suwannee River AHEC

Strategy CW 3.1: Why this is important to our community					
Tobacco use is the largest preventable cause of death and disease in the United States. Substance abuse has a major impact on individuals, families, and communities. The effects of substance abuse are cumulative, significantly contributing to costly social, physical, mental, and public health problems.					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 3.1.1 A By December 31, 2020, educate 16 decision makers on the proximity of tobacco retail outlets to K-12 schools in Alachua County.</p>	<p># of meetings held with decision makers on the proximity of tobacco retail outlets to K-12 schools in Alachua County</p> <p>Tobacco Free Alachua</p>	16	16		Objective met
<p>CW 3.1.1 B By December 31, 2020, reduce the number of tobacco retail outlets within 1,000 feet of schools by 35%, from 23 to 15 retail outlets.</p>	<p># of tobacco retail outlets within 1,000 feet of schools by 35%</p> <p>Tobacco Free Alachua</p>	23	15		No progress due to new retailers opening in Alachua County
<p>CW 3.1.1 C By December 31, 2020, increase the percentage of public schools (K-12 and higher education) campuses in Alachua County with a tobacco-free campus policy to 100%.</p>	<p>% of public school (K-12 and higher education) campuses in Alachua County with a tobacco-free campus policy to 100%</p> <p>Tobacco Free Alachua</p>	100%	100%		Objective met

Strategy CW 3.2 Promote cessation of tobacco use and ENDS use.

Key Partners: Suwannee River Area Health Education Center

Strategy CW 3.2: Why this is important to our community					
<p><i>Tobacco use is the largest preventable cause of death and disease in the United States. Smoking leads to disease and disability and harms nearly every organ of the body. More than 16 million Americans are living with a disease caused by smoking. For every person who dies because of smoking, at least 30 people live with a serious smoking-related illness. Smoking causes cancer, heart disease, stroke, lung diseases, diabetes, and chronic obstructive pulmonary disease (COPD), which includes emphysema and chronic bronchitis. (CDC, 2018)</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 3.1.2 By December 31, 2020, at least 4 employers will offer a cessation program to their employees.</p>	<p># of employees that offer a cessation program to their employees</p> <p><small>Data Source: SRAHEC</small></p>	3	4		<i>In progress</i>

Strategy CW 3.3 Eliminate exposure to secondhand tobacco smoke.

Key Partners: Tobacco Free Alachua, Alachua County, City of Gainesville Housing Authority

Strategy CW 3.3: Why this is important to our community					
<p><i>Secondhand smoke harms children and adults, and the only way to fully protect nonsmokers is to eliminate smoking in all homes, worksites, and public places. (CDC 2018)</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 3.3.1 By December 31, 2020, increase the number of multiunit housing communities that have smoke-free policies by 5%.</p>	<p># of multiunit housing communities that have smoke-free policies</p> <p><small>Data Source: Tobacco Free Alachua</small></p>	137	130		<i>Complete</i>

Goal CW 4: Promote oral health through prevention programs targeting children.

Strategy CW 4.1 Improve access to school-based oral health programs for children.

Key Partners: UF College of Dentistry, Oral Health Coalition, Department of Health Alachua County, School Board of Alachua County

Strategy CW 4.1: Why this is important to our community					
<p><i>School-age children without sealants have almost 3 times more cavities than those with sealants.² Untreated cavities can cause pain, infection, and problems eating, speaking, and learning. School-based programs are an effective way to reach millions of children with sealants. The Community Preventive Services Task Force <u>strongly recommends</u> school-based sealant delivery programs to prevent cavities among children. (CDC, 2018)</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 4.1.1 By December 31, 2020, the percent of third graders who demonstrate untreated caries will be ≤25.1%.</p>	<p>% of third graders who demonstrate untreated caries</p> <p><small>Data Source: UF College of Dentistry</small></p>	<p>2018: 35.5%</p> <p>2017: 35.5%</p> <p>2016: 38.5%</p> <p>2015: 32.6%</p>	<p>≤25.1%</p> <p><small>Florida State Survey 2016-17</small></p>		<p>10.4% higher than the state</p>
<p>CW 4.1.2 By December 31, 2017, the percent of third grade students who have sealants on their molars will be >52.1%.</p>	<p>% of third grade students who have sealants on their molars</p> <p><small>UF College of Dentistry</small></p>	<p>2018: 41.30%</p> <p>2016: 42.5%</p> <p>2015: 47.45%</p>	<p>> 52.1%</p>		<p>4.1.2 Moving in the wrong direction</p>

Strategy CW 4.2 Increase the percent of children in Head Start who receive at least one fluoride varnish application per year.

Key Partners: School Board of Alachua County, UF College of Dentistry

Strategy CW 4.2: Why this is important to our community					
<p>School-age children without sealants have almost 3 times more cavities than those with sealants.¹ Untreated cavities can cause pain, infection, and problems eating, speaking, and learning. School-based programs are an effective way to reach millions of children with sealants. The Community Preventive Services Task Force <u>strongly recommends</u> school-based sealant delivery programs to prevent cavities among children. (CDC, 2018)</p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 4.2.1 December 31, 2020, increase the percentage of children in Head Start who receive at least one fluoride varnish application per year from 77.1% to at least 85%.</p>	<p>% of children in Head Start who receive at least one fluoride varnish application per year</p> <p>UF College of Dentistry</p>	<p>89.0%</p>	<p>85.0%</p>		<p><i>Objective met</i></p>

Goal CW 5: Prevent and control infectious disease.

Strategy CW 5.1 Increase the rate of vaccinations in children.

Key Partners: School Board of Alachua County, DOH- Alachua, Safety Net Collaborative, UF Health

Strategy CW 5.1: Why this is important to our community					
Achieve health equity, eliminate disparities, and improve the health of all groups. Increase immunization rates and reduce preventable infectious diseases.					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 5.1.1 By December 31, 2020, the percent of school children who are immunized against influenza will be $\geq 70\%$.</p>	<p>% of school children who are immunized against influenza</p> <p>Data Source: DOH-Alachua</p>	<p>39.5% 2018-19 46% 2017-19 39.0% 2016-17</p>	<p>$\geq 70.0\%$</p>		<p><i>Elementary schools highest impact</i></p>

Strategy CW 5.2 Decrease the rate of Sexually Transmitted Infections.

Key Partners: DOH-Alachua

Strategy CW 5.2: Why this is important to our community					
<p><i>Many cases of STI's go untreated and undiagnosed leading to long-term health consequences. In addition, STIs add on costs and burdens to the health care system within our community. By decreasing the rate of STIs in our community, we decrease health care costs as well as improve long-term health for many individuals.</i></p>					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 5.2.1 By December 31, 2020, the number of newly diagnosed HIV infections will be ≤60.</p>	<p># of newly diagnosed HIV infections</p> <p><small>Data Source: DOH Alachua</small></p>	<p>56</p>	<p>≤60</p>		<p><i>Reached or surpassed objective target</i></p>
<p>CW 5.2.2 By December 31, 2020, the rate of total early syphilis will be ≤ 29/100,000.</p>	<p>The rate of early syphilis</p> <p><small>Data Source: DOH Alachua</small></p>	<p>26.6/ 100,000</p>	<p>≤29/ 100,000</p>		<p><i>Reached or surpassed objective target</i></p>

Goal CW 6: Improve poverty rates.

Strategy CW 6.1 Improve graduation rates.

Key Partners: School Board of Alachua County

Strategy CW 6.1: Why this is important to our community					
Graduation rates are a social determinant of health that predict overall health outcomes. By increasing the graduation rate of our community, we are preparing a better-trained workforce and improving poverty rates by creating opportunities for success.					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 6.1.1 By December 31, 2020, the percent of residents who have less than a ninth-grade education will be <1%.</p>	<p>% of residents who have less than a ninth-grade education</p> <p>Source: DOH-Alachua</p>	2.80%	≤1%		Ongoing
<p>CW 6.1.2 By December 31, 2020, the percent of residents who have attended some high school but have no diploma will be <2%. (9th through 12th grade, no diploma)</p>	<p>% of residents who have attended some high school but have no diploma</p> <p>Data Source: U.S. Census Bureau, 2012-2016</p>	5.10%	≤2%		Moving in the wrong direction

Goal CW 7: Reduce Violence.

Strategy CW 7.1 Increase awareness and education regarding interpersonal violence prevention.

Key Partners: DOH-Alachua Green Dot Violence Prevention Program

Strategy CW 7.1: Why this is important to our community					
The effects of violence affect family members, friends, and overall community wellness. Besides health consequences, violence can lead to disability, higher medical costs, loss in productivity, and poorer mental health.					
Objective	Indicator	Current Level	Target	Status	Explanation of Status
<p>CW 7.1.1 By December 31, 2020, 1200 community members who live, work, or volunteer in the Greater Duval neighborhoods or Southwest Area Triangle neighborhoods will have participated in evidence-based violence prevention programming.</p>	<p># of community members who live, work, or volunteer in the Greater Duval neighborhoods or Southwest Area Triangle neighborhoods who participate in evidence-based violence prevention programming</p> <p>DOH-Alachua Green Dot Violence Prevention Program</p>	341	1200		Ongoing

Revisions

Revisions in the CHIP were made after careful review of the goals, objectives, strategies and measures of the 2017 – 2020 CHIP. Recommended changes were made based on the following parameters:

Availability of data to monitor progress – performance measures that had county-level data available were preferred, etc.

Availability of resources

Community readiness

Evident progress

Alignment of goals

Strategic Issue Area #2: (CW) Community Wellness

Revised (Old) Strategic Objective	New Strategic Objective	Indicator	Current Level	Target	Explanation for Revision
<p>AC 2.1.2 By December 31, 2020, the percent of people who report they could not see a doctor at least once in the past year due to cost will be <16%</p>	<p>AC 2.1.2 By December 31, 2020, the percent of people who report they could not see a doctor at least once in the past year due to cost will be <12.7%</p>	the percent of people who report they could not see a doctor at least once in the past year due to cost	13.7%	<12.7%	<i>We met the old 2020 target of 16%, so we are moving the target even lower to 1% less than the current level.</i>
<p>CW4.1.1 By December 31, 2017, the percent of third graders who demonstrate untreated caries will be ≤45.7%.</p>	<p>CW4.1.1 By December 31, 2017, the percent of third graders who demonstrate untreated caries will be ≤25.1% (FL State Survey)</p>	% of third graders who demonstrate untreated caries. UF College of Dentistry	35.5%	<u>≤25.1%</u>	<i>Original target was not correct. 2017 target should have been <23.4% (FL Survey 13-14) 2020 target <25.1% (FL State Survey) UF College of Dentistry</i>
<p>CW4.1.2 By December 31, 2017, the percent of third grade students who have sealants on their molars will be > 49.1%.</p>	<p>Data Source: UF College of Dentistry By December 31, 2017, the percent of third grade students who have sealants on their molars will be > 52.1%</p>	% of third grade students who have sealants on molars	41.3%	<u>> 52.1%</u>	<i>2020 target updated</i>

<p>Goal CW3 Reduce illness, disability and death related to tobacco use, and substance abuse.</p>	<p>Goal CW3 Reduce illness, disability and death related to tobacco use, including electronic nicotine delivery system (ENDS) use, and substance abuse.</p>	<p><i>Revised to include electronic nicotine delivery system use</i></p>
--	---	--

Strategy CW3.1 Prevent youth and young adults from initiating tobacco use.	Strategy CW3.1 Prevent youth and young adults from initiating tobacco and ENDS use.	<i>Updated to include ENDS</i>
Strategy CW3.2 Promote cessation of tobacco use.	Strategy CW3.2 Promote cessation of tobacco and ENDS use.	<i>Updated to include ENDS</i>

Accomplishments

Goal	Objective	Accomplishment
<p>1. Increase the number of schools implementing best practices for nutrition and physical activity to reduce childhood obesity</p>	<p>CW 1.3.1 By December 31, 2020, the number of schools recognized through Healthier US School Challenge: Smarter Lunchrooms (HUSSC: SL) will be ≥ 15. 2018 status = 22</p>	<p>In 2018, the number of elementary schools to achieve the HUSSC:SL went from 12 to 22, making all Alachua County Elementary Schools in the school district HUSSC:SL, with 1 school achieving GOLD level for nutrition and physical activity programs, practices and policies. Alachua County Schools were recognized as a Gold Level-Florida Healthy District for their Whole School, Whole Community, Whole Child approach to learning by promoting health and eliminating barriers to learning. These accomplishments have established a learning environment where Alachua county children have an opportunity to make healthy choices and build healthy habits.</p>
<p><i>Schools play a critical role in promoting health and helping them establish lifelong healthy behavior patterns. Research shows a link between the health outcomes of young people and their academic success.</i></p>		
<p>2. To increase the percentage of public school (K-12 and higher education) campuses in Alachua County with a tobacco-free campus</p>	<p>CW 3.1.2 By December 31, 2020, increase the percentage of public school (K-12 and higher education) campuses in Alachua County with a tobacco-free campus policy to 100%.</p>	<p>In 2018, Tobacco Free Alachua was successful in assisting public schools in becoming campuses that are tobacco-free. 100% of K-12 and higher education campuses in Alachua County are now tobacco-free.</p>
<p><i>Eliminating smoking on school campuses in Alachua County is important to the community because research has found that schools that consistently enforced no-tobacco-use policies are more likely to have lower rates of student smoking than comparable schools without such policies. (HP2020) According to the Center for Disease Control (CDC) and the National Association of State Boards of Education, a tobacco-free school policy is the cornerstone of a comprehensive school-based tobacco-use prevention program that includes tobacco-use prevention education in K through 12 classrooms linked with anti-tobacco initiatives in the community, and cessation services for tobacco-using students and staff members who want to quit. This initiative is successful in Alachua County because of the cross-sector collaboration of agencies and the community to work toward a common goal.</i></p>		

Conclusion

The CHIP serves as a roadmap for a continuous health improvement process for the local public health system by providing a framework for the chosen strategic issue areas. It is not intended to be an exhaustive and static document. We will evaluate progress on an ongoing basis through quarterly CHIP implementation reports and quarterly discussion by community partners. We will conduct annual reviews and revisions based on input from partners and create CHIP annual reports each year by Month, Year. The CHIP will continue to change and evolve over time as new information and insight emerge at the local, state and national levels.

By working together, we can have a significant impact on the community's health, improving where we live, work and play and realize the vision of a healthier Alachua County.
